The "AND" operator is unnecessary -- we include all search terms by default. [View details](#)

Web Results 1 - 10 of about 268,000 for pixel position x and y coordinates image trajectory. (0.18 seconds)

### ParticleTracker\_Trajectory

Converts a floating-point offscreen **y-coordinate** (particle **position**) to a traj\_stack ... ROI that engulfs this **trajectory** with 1 **pixel** margin from each edge ...
